

Total Solution – Total Care

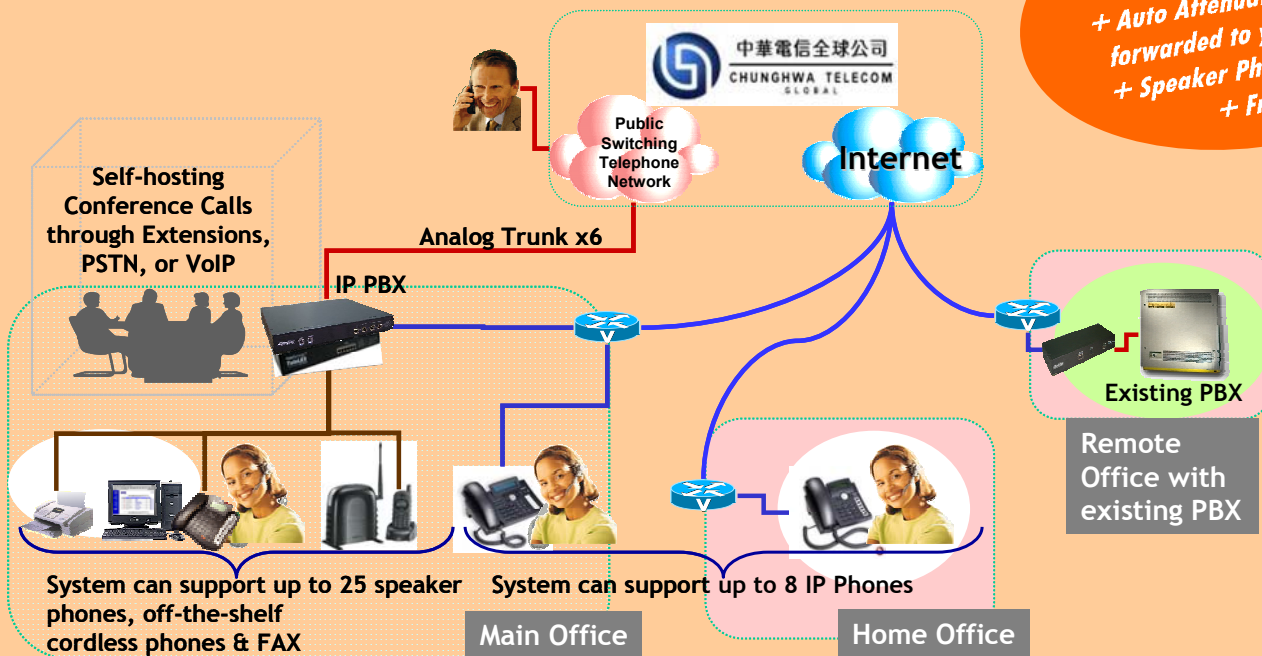

- ✓ Direct extension dialing between offices in different locations.
- ✓ Phone systems at different locations work like just one system.
- ✓ Holds conference for calls made from landline phone, cell phone, office extensions, and VoIP.
- ✓ Joins the across-region across-media conference call from home.
- ✓ Never miss an important call with your IP phone at home or forwarding call to your mobile phone.
- ✓ Personalized call management lets you control when, where, by whom, and how you can be reached.
- ✓ Display caller ID on your cell phone for the calls forwarded from office.
- ✓ A phone system that adapts to the way your business operates.
 - One Number - Many Phones; One Phone - Many Numbers.
 - Creates big company image with small company budget: Flexible Auto Attendant/ Interactive Voice Response guides incoming calls right to the service point.

Save Money – Close More Deals – Increase Productivity – Have Satisfied Customers

Chunghwa Telecom Global is an overseas subsidiary of Chunghwa Telecom, the largest telecom operator that provides local, long distance, wireless, voice and data communications to tens of millions of subscribers in Taiwan. Aside from developing oversea businesses for Chunghwa Telecom in Northern America, Chunghwa Telecom Global actively develops enterprise markets through its premium communications solutions, as well as residential markets with integrated value-added services. With Chunghwa Telecom's enormous telecommunication bandwidth between greater China region and northern America, proven operation model and rich resources, Chunghwa Telecom Global is able to provide cutting-edge, high quality and comprehensive services to both residential and enterprise customers at competitive prices.
